

1085-40-1 (RCMLO)

16 September 2010

Dear parent/guardian:

Enclosed is a detailed health questionnaire package for your child/ward. It is important that you fill out the entire questionnaire, then date, sign and return it to Regional Cadet Support Unit (Central) (RCSU Central). This document will be used to determine the medical limitations, if any, on your child's participation in cadet activities.

Please summarize your child/ward's medical condition(s), clearly indicating the specific diagnosis(es) plus any and all medication(s) prescribed. The summary should also indicate any period(s) of hospitalization, the frequency of follow-up medical appointments and any limitations the condition(s) could impose on your child/ward's participation in everyday and/or sporting activities. If necessary, you can attach a summary of your child/ward's medical file from the physician treating your child/ward.

You and your child/ward must also sign the consent to disclose medical information form. This document will be used if additional information is required from the physician treating your child/ward.

I would suggest you keep a copy of your document(s) in case they are lost in transit. Please reply promptly, so as not to delay your child/ward's participation in unit activities. **Until the RCMLO has reviewed this information, the medical limitations imposed by your responses on the Basic Health Questionnaire may preclude your child/ward from taking part in specific training activities.**

If you have any questions, feel free to contact the RCMLO office on our toll free number 1-877-381-6857, or at the following e-mail addresses:

Robert.bruyns@forces.gc.ca

Richard.mackwood@forces.gc.ca

Barrie.jack@forces.gc.ca

Once you have filled out the forms, please use the enclosed envelope to send them to the address below:
